FRIDAY, JUNE 22, P. M.

The directors of the Lake Shore and Michigan Southern, of the Michigan Central and of the Canada Southern railroads to-day met, and upon the reports made to them of the business of the various companies for six months to end June 30 (the results of the month of June being estimated), declared dividends upon the respective stocks as follows: Lake Shore and Michigan Southern, a quarterly of 2 per cent (2 per cent was paid for the quarter ended March 31); Michigan Central 3 per cent, and Canada Southern 2 per cent—all payable on August 1, 1883. The statement of the Lake Shore and Michigan Southern Company shows earnings for the six months equal to 3.52 per cent on the stock, and shows a deficiency of \$236,825 from the amount of 4 per cent which will have been paid for the six months ending June 30, when the dividend declared to-day is paid on August 1. But the bill of "first charges" furnished by the statement does not include the six months' dues to the sinking funds, which amount to \$125,000; hence the true deficiency for this six months is actually \$361,825. In like manner the sum of \$125,000 for sinking fund must be deducted from the surplus for the six months of 1883, and added to the deficiency for the six months of 1882, as shown in the following comparative statement:

Table comparing earnings and dividends for Lake Shore and Michigan Southern for 1881, 1882, and 1883.

EUROPEAN MARKETS.
